DETAILED ACTION

Claim Objections

Regarding claim 1, the phrase "mesh-like" renders the claim(s) indefinite because the claim(s) include(s) elements not actually disclosed (those encompassed by "mesh-like"), thereby rendering the scope of the claim(s) unascertainable.

Regarding claims 3 and 7 are, the phrases "can be" and "may be"; respectively, render the claims indefinite because it is unclear whether the limitations following the phrase are part of the claimed invention.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by US Patent #6,214,217 to SLIGER, Jr. SLIGER, Jr. discloses the use of a guard (10) for a swimming pool skimmer (31) including an elongate body (25) formed of an open "mesh-like" material and having attaching means (11), (24), (30) for attaching the elongate body (25) across the swimming pool skimmer (31) to prevent leaves, debris and other floating objects from entering the skimmer (31).

Allowable Subject Matter

Claims 2-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
